

Dear Customers,

April 2022

NT Tool Corporation

## Information on Two-face contact BT shank design/model change

Thank you for your continued patronage.

In order to improve the performance of our product, the Two-face contact BT shank holders, we will be changing the design/model. Below we have outlined these changes, so please read the details.

Thank you for your continued support of our products in the future.

### Notice

1) Eligible products

- Two-face contact BT shank holders, WBT-AHO tooling systems.
- Special products equivalent to the above products (including past products)

2) What's changed in the design

① Performance and model

#### **Before design change**

① Pull bolt / Retention knob

- External coolant : Std. BT pull stud
- Internal coolant: AHO pull stud

② Tapered shank coating

- No special coating

#### **After design change**

① Pull stud / Retention knob

- External coolant : Std. BT pull stud
- Internal coolant : Std. BT pull stud

② Tapered shank coating

- With special coating (same as standard BT shank)

③ Reassessment of part of product lineup

\*Please refer to the new No.29 catalog available in May 2022

② Model name after the change

- Model name for the shank will be changed from 「WBT-AHO\*\*」 to 「WBT-AHO\*\*A」

e. g. Before : WBT-AH040-CT32SA-105      After : WBT-AH040A-CT32SA-105

③ Switching date

- Old WBT-AHO model will be switched to the new WBT-AHO-A for the orders received after 2022/4/28. Old WBT-AHO products are available while supply last.

If you have any questions, please feel free to contact our sales representatives.

Thank you.
