

June 2023

Notice of product price revision

Dear NT TOOL Customers,

We greatly appreciate your continued business and support, and we wish for continued mutual success for our companies.

We are reaching out to give notice of price changes on a majority of our products. As shown below, we will have product price revisions for orders received from September 1, 2023. To meet the expectations of our customers, we have endeavored to keep production costs down. However, circumstances have come to a point where we are unable to make changes internally without raising prices.

We appreciate your understanding and if you have any further questions or concerns regarding this price change, please reach out to us.

1. Date of price revisions: All orders received from September 1, 2023.
2. Products subject to price revision:
 - NC Tooling (BT, AHO-A, HSK, UTS, C, ST, FDC collet series, Spanners, etc.)
 - General tooling for special machines
 - Related equipment (tool presetter, etc.)
 - Bushings, chamfering drills, clamp jigs
 - Special/custom items
3. Price revision amount: Above mentioned products will be increased between 3% - 20%.
The revision rate differs for some products and special products.

If you have any questions or concerns, please reach out to us.

Sincerely,

Kiwamu Stewart General Manager / NT USA
